ONLINE SAFETY

YOUTUBE ADVICE FOR PARENTS OF SECONDARYY AGE PUPILS

What is it?

YouTube is an online video platform where users can watch, create and share videos on any topic. When used effectively it has great benefits with educational content and entertainment that may interest your child. However, there can be concerns regarding inapproproate content, advetisements and interaction within comment sections that can be inappropriate for your child.

Google Account

To set up YouTube most effectively, you will need your own Google account. This involves setting up your own Google email address. This will allow you to have full control of YouTube and YouTube Kids. Google accouts can be set up through www.gmail.com. From here, you should set up a Google Account for your child by going through your profile and selecting 'Create account, For my child'. You will be prompted to fill in your child's details and accept parental responsibility for the account.

Creating a supervised account

Supervised accounts are recommended for children age 13+. When you have signed into your parent Google account, select Settings and then Parental settings in the menu. You will then see your child's email account. Select the child you want to create a supervised account for.

				Onor you select the TMNHH STUP button below, the YouTube and pay do you the button to go will be arbicoted on your child's sugarised devices. This includes computers, bublics, specifies, yourn TVis and game consoles that are signed in to YouTube. Remember that the YouTube settings that you
				select for your child will not apply when your child is not using the YouTube website or app, for example when your child views embedded YouTube content on a third party news website.
	Change your children's content settings in parental settings.	Block channels direct account	8	Privacy Policy
			When your child signs in to "four-Tabe with their Google Account, the information that we collect, insiding your childs search and watch history, may be stored with their Google Account and used to improve your child's Google expension.	
	NEXT			To learn more about our privacy practices for your child's Google Accounts please see the Privacy Notice for Google Accounts managed with Family Link and the Google Privacy Policy.
				FIRNTER SETUP

General Settings

Under General Settings, you will find various options to disabling autoplay, stop recommended content, restrict mature content and more.

Monitoring activity

It is recommended that all parents monitor their child's YouTube activity to ensure their child isn't viewing unsuitable content that may have slipped through content settings. To do this, sign in to your child's account and click their profile. From here, you can go to settings, History and Privacy and Manage all activity. This will allow you to view everything your child has viewed. If this is turned off, you will be notified via your parent account.
