APP RECOMMENDATIONS FOR PARENTS OF PRIMARY AGE CHILDREN

Feedback from the Parent Consultations reported that parents of our children in Primary 1 and Primary 2 would like some recommendations on safe, educational apps that their children could enjoy. Below is a list of apps your child might enjoy.

As with every app, we recommend that you view the app before letting your child access it and check the parental controls.

Prodigy, age 6 - 13

An adventure, quest based game where your character becomes stronger and you unlock new map areas by solving Maths problems.

Free with in app purchases available.

Dragonbox Maths, age 4+

An app with fun characters to help your child learn a variety of different Maths topics.

Free with in app purchases available

PictoBlox, age 3+

A coding app linked to robotics and machine learning. Uses simple and drag and drop coding blocks to create their own games and animations.

Free

ABC Kids - Tracing and phonics, age 2+

Helps children build English letter recognition, understand letter sounds and the connection between upper and lower case letters.

Free

Books for Kids, age 3+

This app uses games, quizzes and challenges in reading and Maths. It uses an algorithm to determine your child's skill level so they have access to appropriate challenges.

Free

Artworkout, all ages

This app is a skill building app that gives children step by step guides to help them learn how to draw everything from simple shapes to complex images.

Free with in app purchases available
